The following "model request" is a <u>preliminary</u> attempt to highlight the elements that any EU controller or processor should request from any EU controller or processor with ties to the US (such as an EU provider with a US parent company).

Depending on your situation, you may need to <u>amend</u> this text or omit certain elements. Please be aware that these questions only highlight the elements that the CJEU has relied on in C-311/18. There may well be other laws that a controller or processor also has to take into consideration.

This text is free to use (CCO). Given its preliminary nature, we cannot guarantee that this text will cover all legally relevant elements for your specific processing operation. We are looking forward to your feedback via info@noyb.eu and will continuously update this document over the coming days.
